

Cryogenic Firming Mask

- Description:** An ultra fine cooling algae base mask which is in green color. It is characterized by its exceptional plasticity and soothing qualities.
- Indications:** Sensitive and over stimulated skins.
- Contra Indications:** For external use only.
- Active Ingredients:** Alginic Acid-----Elasticizes, Moisturizes, and purifies the skin.
Menthol-----Cools.
Spirulina-----Protein enriched.
Mannitol-----Moisturizes.
Vitamins A & E-----Potent anti-oxidant.
Tayme-----Anti-Septic properties.
Spearmint-----Cools and refreshes.
- Benefits:** Soothes, Calms, and hydrates irritated skin, while purifying clogged pores.
- Professional Use:** Measure 1 ounce (by quantity not by weight) of the Cryogenic Firming Mask into a bowl and add an equal amount of water or activator. Mix rapidly (approximately 30 seconds) until a frosting like consistency is reached. Be sure to lubricate the eyebrows and hairline with a moisturizer to prevent the mask from sticking to the hair. Apply to face and neck until covered. Let dry for 12 minutes. To remove, roll the mask from the neck and lift off as one piece. Follow with a hydrating serum or cream.
- Note:** The mask must be applied as soon as it is mixed or it will begin to harden, and will not be able to be applied.
- Retail Use:** Not applicable.
